

L-Banner Model L90C

STANDS

The L Banner Stands are portable and very cost effective. Their streamlined frame design creates its own tension for the graphic panel (no springs required) and provides stability on the floor.

Multiple banners may be joined together to create larger displays.

An elegant free standing banner display. The L90C provides the large display effect of Retractable Banner Stands while maintaining a discreet profile. The unit consists of aluminium top and bottom gripping bars, a 3-section aluminium pole, top bar pole attachment & solid base. Comes complete with a hard tube carry bag. Unit comes in Silver or Black.
