

Double L-Banner STANDS

Optional light attachment

The Double L Banner Stands are portable and very cost effective. Their streamlined frame design creates its own tension for the graphic panels (no springs required) and provides stability on the floor.

Multiple banners may be joined together to create larger double sided display walls.

An elegant free standing banner display. The Double L Banner provides the large display effect of Retractable Banner Stands while maintaining a discreet profile. The unit consists of aluminium top and bottom gripping bars, two 3-section aluminium poles, top bar pole attachment & solid base. Comes complete with a hard tube carry bag.
