

# Tri-Banner DISPLAY

This tri-banner display offers a high impact design when maximum visibility is required. A three-sided display, this banner stand will grab attention from all angles. Each tri-banner display is made up of three joined panels measuring 90cm wide by 200cm high.

As such a tall display, this 3-sided banner stand will command attention in any marketing venue.

This tri-banner display is an ideal product for trade shows, conventions, or any other event where a 360 degree visibility is important. This tri-banner display is made of lightweight aluminum materials that are compact and easy to assemble. Despite its large size, your banner display easily packs down into a manageable shipping box for transportation and storage.
